

FlyLady's Broccoli Salad

1 bunch broccoli (about four crowns)

3/4 c. raisins (I like golden raisins)

1/2 c. chopped red onion

1 tbs. sugar

2 tbs. vinegar (I like balsamic)

1 c. mayonnaise

10 bacon slices, cooked and crumbled

1 c. sunflower seeds (optional)

Fry bacon slices and set aside. Cut broccoli into flowerets and tender stem pieces. Mix, sugar, vinegar, mayo. Add to broccoli, along with remaining ingredients. Refrigerate and serve chilled. I make the day before.

Note: these are my proportions, which I changed slightly from the recipe that was given to me. That one says 5 cups of broccoli, so I guess it would depend on the size of the bunch you have to start with. I use more raisins and onion than the original.
